Shine On
By John Cruz

C    G7    C    G7 x2

Verse 1:
C                 G7                 C               G7
The morning sun comes through the window on your hair
C         G7                   C          G7
I find your love and spirit everywhere
C                 G7                C              G7
I may not have that much to give in material things
C              G7               C             G7
But what I have is this song and to you I sing

Chorus:
C  G7     C     G7
Shine on, shine on
C                   G7                 C         G7
Let your light fill up this world til’ dawn
C  G7     C    G7
Shine on, shine on
C                   G7                 C         G7
Let your light fill up this world til’ dawn

Verse 2:
C                G7                      C                G7
All night long I wait for you and you’re finally there
C              G7                      C          G7
I’m amazed at the loving that we both have shared
C                 G7               C                 G7
I may not have that much to give in material things
C             G7              C          G7
But what I have I give to you so freely

Chorus>

Bridge:
C             G7                     C          G7
All night long, I will wait for your fire
C             G7                     C          G7
All night long, I will wait for your fire

Verse 1>

Chorus>
